

Upgrade your Nitrous Oxide System for \$ 99

Ver 1.0 Dec 2014

The Clearview Hood from ACCUTRON incorporates the double hood design with a clear scavenging outer hood, allowing you to monitor the patients breathing directly in your line of sight.

Clearview's Coloured and Scented Hood provides a comforting and pleasant appearance for patients (particularly children) to assist in overcoming the anxiety many patients experience when visiting the dentist.

The Benefits of the Clearview Hood

Able to fit your Existing Tubing Set

Original Matrix™ Hood Set
With Matrix scavenging cone

Clearview Hood Upgrade
Fitted to Matrix™ tubing set.

Original Porter™ Hood Set

Clearview Hood Upgrade
Fitted to Porter™ tubing set.

- Clearview's hood design promotes better access by being angled away from the oral area.

- The design of the Clearview hoods creates both a comfortable and effective seal against the patient nasal region.

-The scavenging hood exhalation valve is included with every hood so the correct function is guaranteed.

- Efficient Scavenging.

-The clear outer hood allows the ability to monitor patients breathing, and verify the correct operation of the exhalation valve.

- Colours and assorted scents of the Clearview Single Use Hoods combine to assist with overcoming patient anxiety, especially with children.

- Clearview hoods are extremely easy to change between patients and require no disassembly.

-The cost of the Clearview hoods is competitive.

- Clearview hoods are 100 % Latex Free

Clearview is available in Single Use Scented Types in Boxes of 12 for \$ 99.

The Clearview hood can easily be fitted to Matrix™ tubing sets with an easy to fit adapter kit supplied FREE with your 1st Order!

No adapter set to fit Porter tubing set is required.
