

PIP+ Hoods make your Porter System More Flexible and Economical

Accutron's Personal Inhaler Plus (PIP+) Single Hood Sets incorporate a clear scavenging cone with a special thermoplastic elastomer construction to maintain good hood shape. The 100% latex free material minimises potential for allergic reactions in three comfortable sizes to accommodate all patient types.

Able to fit a all both Matrix and Porter tubing sets in addition to the Accutron tubing circuit, PIP+ hoods provide more flexible sizing with greater cost effectiveness.

Original Porter™ Hood and Tubing Set

Porter™ Tubing Set with PIP+ Upgrade

PIP+ hood sets are available in Single Use Assorted Scented Types in Boxes of 24, The coloured hoods offers to pleasant appearance that combines to assist with overcoming the anxiety patient's experience with visiting the dentist.

The Multiple Use Autoclavable hood also available in all sizes.

'The PIP+ hood can easily be adapted Matrix™ tubing sets using an easy to fit adapter supplied free of charge.*

Now you can obtain the Accutron advantage with your existing Porter System!

The Benefits of the PIP+ Hood

By upgrading your existing Matrix™ Hood to the Accutron PIP+ System you benefit by adding a number of advantages to your existing tubing set.

- PIP+ hood design promotes better access by being angled away from the oral area.

- The design of the PIP+ hoods creates both a comfortable and effective seal against the patient nasal region.

- Replacement of the hoods becomes easier with the PIP+ hood, with less effort required and minimal misalignment of the hood.

- The scavenging hood exhalation valve is included with every hood so the correct function is guaranteed

- PIP+ clear scavenging cone allows the ability to monitor patients breathing, and verify the correct operation of the exhalation valve.

- The colours and assorted scents of the PIP+ Single Use Hoods combine to assist with overcoming patient anxiety, especially with children.

- Cost of the PIP+ hoods is competitive.
